HUMΛN-Ø LEAN CANVAS

Sustainable Impact Through Web3 Technology | Version 1.1.0

Generated: November 25, 2025

PROBLEM

- Lack of transparency in carbon offset verification
- Complex and inaccessible sustainability tracking
- Limited engagement in environmental initiatives
- Fragmented carbon credit marketplace
- Difficulty verifying real environmental impact
- High barriers to entry for climate action

SOLUTION

- Blockchain-based impact tracking system
- Tokenized carbon credits with NFT rewards
- Gamified sustainability platform
- Real-time verification dashboard
- Decentralized governance mechanism
- Mobile-first user experience

KEY METRICS

1M+ Active Users	**85%** Engagement Rate
99.9% Uptime	**4.8/5** User Satisfaction
$5M+ ARR	**2.5x** ROI

UNIQUE VALUE PROPOSITION

- Transparent blockchain-verified carbon tracking
- Gamified sustainability with real rewards
- Web3-native environmental impact platform
- Instant verification and certification
- Community-driven climate action
- Accessible carbon offset marketplace

UNFAIR ADVANTAGE

- First-mover in Web3 sustainability space
- Proprietary verification algorithms
- Exclusive partnerships with major NGOs
- Patented gamification mechanics
- Established network effects
- Regulatory compliance framework

CHANNELS

- Mobile App Store (iOS/Android)
- Web platform and dashboard
- Social media campaigns
- Partner networks
- Community events and workshops
- Content marketing and SEO

CUSTOMER SEGMENTS

- Eco-conscious individuals
- Corporate sustainability teams
- Environmental organizations
- Web3 enthusiasts and investors
- Educational institutions
- Climate-focused startups

COST STRUCTURE

- Platform development (25%)
- Blockchain infrastructure (22%)
- Marketing & community (20%)
- Gas fees & operations (15%)
- Partnership management (10%)
- Compliance & auditing (8%)

REVENUE STREAMS

35% NFT Minting	**25%** Transaction Fees	**15%** Premium Analytics
15% Corporate Partnerships	**5%** Carbon Trading	**5%** Pro Subscriptions

Key Performance Indicators: 95% Partner Retention • 300% User Growth • 75% Gross Margin • $2.5M Burn Rate
